

Interior paints VOC content & emissions by program

Program or regulation	APE restriction	Flats	Non flats	Primers	Colorant added at point of sale	VOC emission test	Other chem restrictions
VOC content only		VOC content limit (g/L)					
SCAQMD Rule 1113 (2016)	no	50	50	100	50	no	no
SCAQMD 1113 Super Compliant	no	10	10	10	50	no	no
CA ARB SCM (2007)	no	50	100	100	no	no	no
MPI GPS-1-14	no	50	150	200	no	no	Some carcinogens, heavy metals, & others
MPI GPS-2-14	no	50	50	n/a	no	no	Some carcinogens, heavy metals, & others
MPI Institutional Low Odor	no	10	10	10	no	no	no
GreenWise Certified	no	50	50	50	no	no	Heavy metals & others
GreenSeal-11 v 3.2 (Oct 2015)	yes	50	100	100	no	no	CMRs, heavy metals, & others
VOC emissions only							
GreenGuard Gold	no	no	no	no	no	CDPH +TLV	no
Berkeley Analytic ClearChem	no	no	no	no	no	CDPH	no
SCS Indoor Advantage Gold	no	no	no	no	no	CDPH	no
VOC content & emissions							
MPI Extreme Green	no	50	50	n/a	no	CDPH	Some carcinogens, heavy metals, & others
GreenWise Gold	no	5 (T)	5 (T)	5	included in base req.	CDPH	Heavy metals & others
<p>“no” = the program does not address this issue CDPH = California Department of Public Health Standard Method for Testing and Evaluation of VOC Emissions V1.2–2017 +TLV = GreenGuard adds more substances to the list addressed by CDPH using 1/100th of TLV levels n/a = the program does not have specifications for that type of product CMRs = carcinogens, mutagens and reproductive toxicants T= VOC content limit includes colorants</p>
